New: NATUREFORMER KFT 90 now as Advanced version for fiber thermoforming – available just in time for Interpack 2023

KIEFEL GmbH, a market leader in the design and manufacture of polymer and natural fiber processing machines, automation and tools, will be presenting its extensive portfolio of innovative and sustainable solutions for various industries in **Hall 8a / C57 at Interpack 2023**. Available just in time for this trade show: The new, advanced version of the NATUREFORMER KFT 90 with innovative functions to increase productivity.

The production of fiber-based packaging has reached new dimensions in terms of quality and efficiency thanks to the new advanced version of the NATUREFORMER KFT 90 which includes a range of innovative features that will increase your productivity.

With improved steam management, Kiefel Steam Flow Technology allows for up to a **remarkable 30% reduction in cycle time** - meaning faster production and greater efficiency than before. In addition, its new temperature controller ensures the highest possible process reliability and provides **full control** over every aspect of the operation. With an optimized HMI interface that **simplifies machine operation**, it's easier to get started producing high-quality parts right away, without warm-up phase. Furthermore, customers can expect higher profits due to an advanced molding process that reduces weight variation while increasing good parts.

For those customers who already have the KFT 90 installed, these innovative features are also available as an **'Advanced Upgrade'**.

The team of Kiefel is looking forward to sharing more about the new solution with visitors at the booth **Hall 8a / C57** at Interpack.

PRESS INFORMATION

The NATUREFORMER KFT 90 now upgraded for a 25% faster production. Advanced features also available for KFT 90 already installed as "Advance Upgrade". © KIEFEL GmbH

The NATUREFORMER KFT 90 can produce a variety of natural fiber packaging - from trays, cups to coffee capsules, containers for frozen food and more. © KIEFEL GmbH

About Kiefel

Kiefel develops and produces high quality machines for processing plastics, recycled and bio-based materials as well as natural fibers. Kiefel's customers include well-known manufacturers from the medical engineering & pharma, refrigerator, and packaging industries. With its own technology and material centers, the company offers turnkey solutions and provides support in partnership from product development through machines and tools to service.

Kiefel has a global presence thanks to our own sales and service teams in the USA, France, the Netherlands, China, and India, as well as our sales and service partners in more than 60 countries.

KIEFEL GmbH owns the Dutch thermoform toolmaker Kiefel Packaging BV, as well as the Austrian company KIEFEL Packaging GmbH, a supplier of tools and automation solutions.

Kiefel and its subsidiaries employ around 900 staff. KIEFEL GmbH is a member of the Brückner group, based in Siegsdorf, which is a family owned group of medium-sized enterprises active in machinery and plant engineering with around 2,900 employees at 21 different locations worldwide.
