

DecoMat-HP4

Achieving outstanding
decoration solutions.

Application possibilities

High precision hot stamping for various articles for the plastic-, food-, packaging- and automotive industry.

Main features

- Basic structure with 4-station rotary indexing table
- Selection of different hot stamping modules
- Manual loading or with automatic placement robot
- Inspection system for 100% quality control
- Possible integration of cleaning modules
- Compact design

Your benefit

- Highest production flexibility due to modular concept
- Quick change-over from one product to another
- Foil saving stamping head arrangement
- Fully automatic in- or offline operation
- Low operating costs due to highest energy efficiency

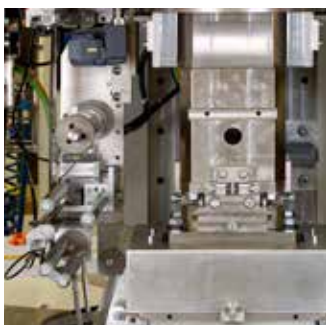

DecoMat-HP4

Modular hot stamping machine for highest flexibility.

Technical data

Output	Foil and part related
Stamping pressure	5 / 20 / 40 / 60 kN
Part height	up to 100 mm
Part length/width	up to 800 mm / up to 300 mm
Foil width	100 / 200 / 300 mm
