

## Product Discontinuation Information

### PC-WORKSTATIONS with WINDOWS XP

---

Dear Valued Customer,

Brückner Servtec has been informed that the availability of original PC-workstations, equipped with Windows XP as operating system, will expire within the next months. After the expiry, every new PC-workstation will be equipped with Windows 7 as operating system. Unfortunately, the visualization software which is in use with Windows XP equipped PC-workstations (PVSS V3.1 and previous versions) is not directly compatible with the new version of Windows.

#### Affected PVSS versions:

**3.1, 2.12, and previous versions used with Windows XP**

Orders of PC-workstations configured with one of the above mentioned PVSS version and which are placed after the expiration will result in additional engineering effort, higher costs and a longer delivery time. Therefore please ensure to check your spare stock earliest possible to avoid unpleasant situations and higher costs for this equipment. After the expiration, Brückner Servtec will sell the remaining stock on first-come first-serve basis.

AFFECTED PART: PC-workstations for PVSS with Windows XP  
LAST ORDER: **31.08.2010 (availability not guaranteed)**  
REPLACEMENT: to be announced

For further information or your individual quotation request, please contact [E-SERVICE@BRUECKNER.COM](mailto:E-SERVICE@BRUECKNER.COM).

*One Step Ahead – with Brückner Servtec*

Best regards,

Your Brückner Servtec Service Team
